Policy on green campus

Date: 02/08/2022

A green campus integrates environmentally friendly practices with educational efforts to promote sustainability and eco-conscious behaviours throughout the campus. The green campus concept provides an institution with the chance to take a leadership role in the green campus concept allows an institution to redefine its environmental culture and establish new paradigms by creating sustainable solutions for humanity's environmental, social, and economic needs. Vidyasagar Infotech College fosters an environment dedicated to the effective implementation of green campus initiatives both on and off campus.

**Restricted entry of automobiles:** The college encourages staff and students to use public transportation instead of their own vehicles to enhance safety, security, fuel conservation, and reduce environmental pollution. Signs prohibiting motorized vehicles from entering the campus are prominently displayed.

**Use of bicycles:** The institution is committed to fostering a green culture and promoting a more sustainable ecosystem by encouraging the use of bicycles, thereby contributing to a pollution-free environment.

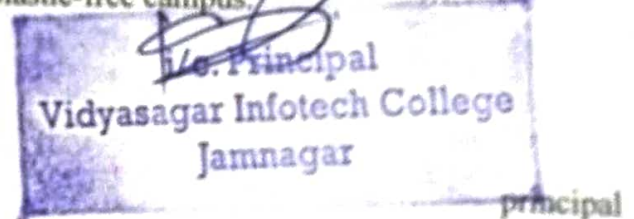

**Use of LED:** Vidyasagar Infotech College is committed to adopting renewable energy sources. Aware of the decreasing availability of fossil fuels, our institution is LED, or Light Emitting Diode, represents one of the most advanced and energy-efficient lighting technologies available today. LED lights have been installed in all classrooms, laboratories, and staff rooms. proactively engaged in advancing and utilizing alternative renewable energy solutions.

The following alternative energy sources are available on our campus:

1. LED bulbs to lower energy consumption
2. Awareness among students regarding the proper use of resources
3. The policy is communicated via internal circulars, and its effective implementation is overseen by the administrative office under the principal's guidance.

**Plastic-Free Initiative:** As part of our ongoing commitment to a sustainable future, Vidyasagar Infotech college has implemented a comprehensive ban on single-use plastics across our campus. This initiative is aimed at reducing plastic waste and promoting a cleaner environment.

Effective immediately, the use of single-use plastics is strictly prohibited in all classrooms, laboratories, and other campus facilities. We encourage students, faculty, and staff to adopt eco-friendly alternatives and support our efforts towards a plastic-free campus.

NOTICE

**Subject:** Let's Go Green! - Eco-Friendly Campus Initiative

**To:** All Students, Faculty, and Staff

**From:** Principal

**Date:** 02/08/2022

As we strive for excellence in education, we recognize the importance of protecting our environment. Our college is committed to creating an eco-friendly campus, promoting sustainability, and reducing our carbon footprint.

**Initiatives:**

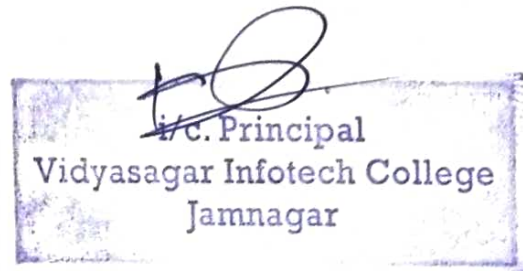

1. Reduce, Reuse, recycle: Implementing recycling programs for paper, plastic, glass, and metal.
2. Energy Efficiency: Upgrading to LED lighting and energy-efficient equipment.
3. Water Conservation: Installing low-flow fixtures.
4. Sustainable Transportation: Encouraging carpooling, cycling, and electric vehicles.

**Your Role:**

1. Participate in recycling programs and reduce waste.
2. Conserve energy and water in your daily activities.
3. Use public transport, carpool, or cycle to campus.
4. Support our green initiatives and suggest new ideas.

Let's work together to make our campus a sustainable and eco-friendly environment!

The initiatives taken by the college to make the campus eco-friendly are as follows:

• **Energy Conservation:**

1. The campus lights replaced by CFL and LED lights to conserve energy is going on.
2. The message "SAVE POWER, SAVE WATER" is publicized widely to create awareness and sense of responsibility through rallies.
3. Care is taken to switch off the lights when not required.
4. Computers, printers, fans, and other electronic instruments are switched off when not in use.

• **Water Harvesting:**

1. Water connections and gutters are well maintained to ensure that enough water is provided in each department.
2. Although, there is no separate water harvesting system in the college.

• **Efforts for Carbon Neutrality:**

1. The college takes all possible efforts to bring carbon neutrality. The campus is a minimum carbon emitting campus, college does not use carbon emitting equipment beyond the permitted limit.
2. A faculty from Botany is working on highly carbon absorbent plants.
3. We motivate the staff and students to do the Pollutions Under Control (PUC) testing.
4. The college campus is green, and every year tree plantation drive is undertaken.

• **Hazardous Waste Management:**

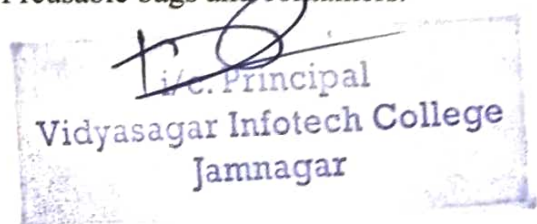

1. Exhaust fans are installed in the laboratories to exhaust the hazardous gases.
2. We motivate and convince the students to avoid plastic bags.

• **Greenery and Landscaping:**

1. **Tree Planting Drives:** Organizing events to plant native trees and shrubs.

• **Plastic Waste Reduction:**

1. **Plastic-Free Campaigns:** Encouraging the use of reusable bags and containers.

• **Others:**

**Slogan boards in the campus:**

The slogans on environmental awareness are displayed in the campus to propagate green campaign successfully. These slogans encourage students to protect and keep the campus clean.

**Prevention of sound pollution:**

We motivate the students to prevent the sound pollution. Even awareness is created amongst them to spread the same in the society.
